

Advance Sweeper Parts

Imagine how long and tiresome it would really be to clean-up after a party, without assistance from equipment. Not too long ago, the dust from upholstery and carpets had to be beat out of them manually; brooms, brushes and cleaning cloths were the top cleaning products during that time.

The founder of Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who liked to work on electrical motors. After establishing his business in the year 1906, he began to produce motors to drive fans, machine tools, drills and coffee grinders. Mr. Fisker's vision from the beginning was to have a global company advertising goods worldwide.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented a incredible, ground breaking vacuum cleaner that could be operated by one person as it just weighed 17.5 kilos! This creation came in a time where numerous cleaning machines were huge and required at least 4 operators, hence, the Nilfisk C1 transformed everything and developed the way we clean forever. The mastermind behind these first cleaning machines remains unparalleled. Cleaning machines provide an excellent solution to an ongoing problem; things get filthy and should be cleaned frequently, without too much effort.

Gradually but steadily, Nilfisk-Advance expanded through the years. In the nineteen eighties, this expansion truly took place the time the company became a part of the NKT Group. Their new owners' drive and concentration made Nilfisk-Advance take a huge leap forward within the business, trying to be amongst the leading international players in the market of professional cleaning machines. Nilfisk-Advance is currently represented in all parts of the world by gradually obtaining a lot of small companies in order to grow their product selection and presence in new markets. They are proud to present different cleaning solutions to suit every need.
